Module 2: Git Assignment - 2

- By M G Ishaque

Tasks To Perform:

1. To create a Git working directory with `feature1.txt` and `feature2.txt` in the master branch
2. To create 3 branches develop, feature1 and feature2
3. To in develop branch create develop.txt, do not stage or commit it
4. To stash this file and check out to feature1 branch
5. To create `new.txt` file in feature1 branch, stage and commit this file
6. To checkout to develop, unstash this file and commit
7. And to submit all the Git commands used to do the above steps

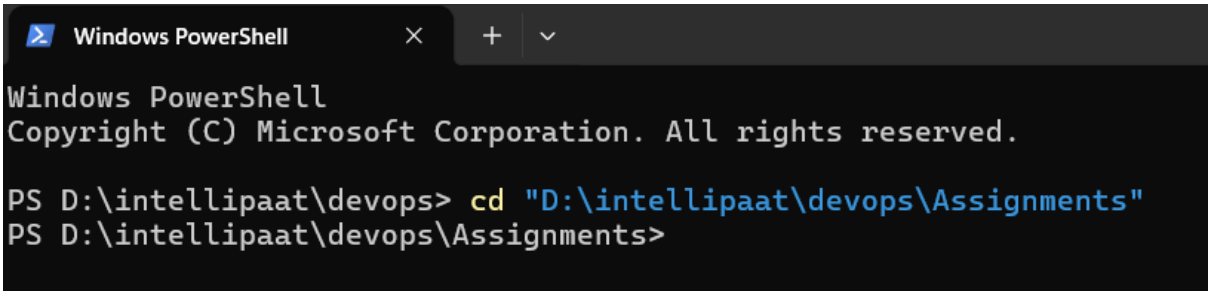

Solution Steps

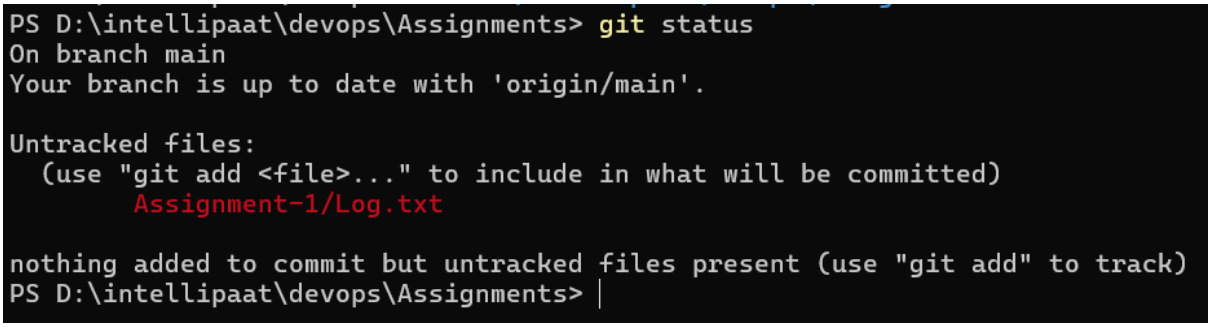

1.

a. To create the working directory and master branch

Navigated to the directory

```
cd "D:\intellipaat\devops\Assignments"
git status
```

Created a new branch called master and immediately switched to it.

```
git switch -c master
```

```
PS D:\intellipaat\devops\Assignments> git switch -c master
Switched to a new branch 'master'
```

Created Assignment-2 directory and navigated to it

```
mkdir Assignment-2
cd Assignment-2
```

```
PS D:\intellipaat\devops\Assignments> mkdir Assignment-2

    Directory: D:\intellipaat\devops\Assignments

Mode                 LastWriteTime         Length Name
----                 -------------         ------ ----
d-----        07-11-2026     21:39                Assignment-2

PS D:\intellipaat\devops\Assignments> cd Assignment-2
PS D:\intellipaat\devops\Assignments\Assignment-2>
```

a. **created the initial files** `feature1.txt, feature2.txt`

```
New-Item feature1.txt, feature2.txt -ItemType File
git add feature1.txt feature2.txt
git commit -m "Add initial feature files"
```

```
PS D:\intellipaat\devops\Assignments\Assignment-2> New-Item feature1.txt, feature2.txt -ItemType File

    Directory: D:\intellipaat\devops\Assignments\Assignment-2

Mode                 LastWriteTime         Length Name
----                 -------------         ------ ----
-a----        07-11-2026     21:42              0 feature1.txt
-a----        07-11-2026     21:42              0 feature2.txt

PS D:\intellipaat\devops\Assignments\Assignment-2>
```

```
PS D:\intellipaat\devops\Assignments\Assignment-2> git add feature1.txt feature2.txt
PS D:\intellipaat\devops\Assignments\Assignment-2> git commit -m "Added feature1.txt and feature2.txt"
[master aa47cf4] Added feature1.txt and feature2.txt
 2 files changed, 0 insertions(+), 0 deletions(-)
 create mode 100644 Assignment-2/feature1.txt
 create mode 100644 Assignment-2/feature2.txt
PS D:\intellipaat\devops\Assignments\Assignment-2>
```

2. **Created three branches**

```
git branch develop
git branch feature1
git branch feature2
git branch    # to verify
```

```
PS D:\intellipaat\devops\Assignments\Assignment-2> git branch develop
>> git branch feature1
>> git branch feature2
PS D:\intellipaat\devops\Assignments\Assignment-2> git branch
  develop
  feature1
  feature2
  main
* master
PS D:\intellipaat\devops\Assignments\Assignment-2>
```

3. **Created an untracked file** `develop.txt` **in develop**

```
git switch develop
New-Item develop.txt -ItemType File
```

```
PS D:\intellipaat\devops\Assignments\Assignment-2> git switch develop
Switched to branch 'develop'
```

```
PS D:\intellipaat\devops\Assignments\Assignment-2> New-Item develop.txt -ItemType File

    Directory: D:\intellipaat\devops\Assignments\Assignment-2

Mode                 LastWriteTime         Length Name
----                 -------------         ------ ----
-a----        07-11-2026     21:51              0 develop.txt

PS D:\intellipaat\devops\Assignments\Assignment-2>
```

```
PS D:\intellipaat\devops\Assignments> git status
On branch develop
Untracked files:
  (use "git add <file>..." to include in what will be committed)
        Assignment-2/develop.txt

nothing added to commit but untracked files present (use "git add" to track)
PS D:\intellipaat\devops\Assignments>
```

4.

a. **Stash** develop.txt

```
git stash push -u -m "Stash develop.txt" -- develop.txt
git stash list
```

```
PS D:\intellipaat\devops\Assignments\Assignment-2> git stash push -u -m "Stash develop.txt" -- develop.
txt
Saved working directory and index state On develop: Stash develop.txt
PS D:\intellipaat\devops\Assignments\Assignment-2> git stash list
stash@{0}: On develop: Stash develop.txt
```

b. **Switched to feature1 branch**

```
git switch feature1
```

```
PS D:\intellipaat\devops\Assignments\Assignment-2> git switch feature1
Switched to branch 'feature1'
```

5. **Created** new.txt **in feature1 branch**

```
New-Item new.txt -ItemType File
```

```
PS D:\intellipaat\devops\Assignments\Assignment-2> New-Item new.txt -ItemType File

    Directory: D:\intellipaat\devops\Assignments\Assignment-2

Mode                 LastWriteTime         Length Name
----                 -------------         ------ ----
-a----        07-11-2026     22:08              0 new.txt
```

```
git add new.txt
git commit -m "Add new.txt in feature1 branch"
```

```
PS D:\intellipaat\devops\Assignments\Assignment-2> git add new.txt
PS D:\intellipaat\devops\Assignments\Assignment-2> git commit -m "Add new.txt in feature1 branch"
[feature1 e5aea41] Add new.txt in feature1 branch
 1 file changed, 0 insertions(+), 0 deletions(-)
 create mode 100644 Assignment-2/new.txt
PS D:\intellipaat\devops\Assignments\Assignment-2>
```

6. **Switched to develop branch, unstash/restore, stage and commit develop.txt**

```
git swtich develop
git stash pop
```

```
PS D:\intellipaat\devops\Assignments\Assignment-2> git switch develop
Switched to branch 'develop'
PS D:\intellipaat\devops\Assignments\Assignment-2> git stash pop
Already up to date.
On branch develop
Untracked files:
  (use "git add <file>..." to include in what will be committed)
        develop.txt

nothing added to commit but untracked files present (use "git add" to track)
Dropped refs/stash@{0} (0532806f283fc851a2be6fe5b2ddcdbd86679c01)
```

```
git add develop.txt
git commit -m "Add develop.txt in develop branch"
```

```
PS D:\intellipaat\devops\Assignments\Assignment-2> git add develop.txt
PS D:\intellipaat\devops\Assignments\Assignment-2> git commit -m "Add develop.txt in develop branch"
[develop ff7814c] Add develop.txt in develop branch
 1 file changed, 0 insertions(+), 0 deletions(-)
 create mode 100644 Assignment-2/develop.txt
PS D:\intellipaat\devops\Assignments\Assignment-2>
```

7. Verification

```
git branch
git log --all --oneline --graph --decorate
```

```
PS D:\intellipaat\devops\Assignments> git branch
* develop
  feature1
  feature2
  main
  master
PS D:\intellipaat\devops\Assignments> git log --all --oneline --graph --decorate
* ff7814c (HEAD -> develop) Add develop.txt in develop branch
| * e5aea41 (feature1) Add new.txt in feature1 branch
|/
| *   3182f51 (refs/stash) On develop: Stash develop.txt
|/|\
| | * 1737a41 untracked files on develop: aa47cf4 Added feature1.txt and feature2.txt
| * 0fc58c8 index on develop: aa47cf4 Added feature1.txt and feature2.txt
|/
* aa47cf4 (master, feature2) Added feature1.txt and feature2.txt
* ac8ad6e (origin/main, main) Organize Git files under Assignment-1
* 0bc5d1f Added Code.txt and Output.txt
PS D:\intellipaat\devops\Assignments>
```

8. List of all Git commands used

```
# Task 1: Create Git working directory on master
cd "D:\intellipaat\devops\Assignments"
git switch main
git switch -c master
mkdir Assignment-2
cd Assignment-2

New-Item feature1.txt, feature2.txt -ItemType File
git add feature1.txt feature2.txt
git commit -m "Add feature1.txt and feature2.txt"

# Task 2: Create three branches
git branch develop
git branch feature1
git branch feature2
git branch

# Task 3: Create an untracked file on develop
git switch develop
New-Item develop.txt -ItemType File
git status

# Task 4: Stash develop.txt and checkout feature1
git stash push -u -m "Stash develop.txt" -- develop.txt
git stash list
git status
git switch feature1

# Task 5: Create, stage and commit new.txt
New-Item new.txt -ItemType File
git add new.txt
git commit -m "Add new.txt in feature1 branch"

# Task 6: Checkout develop, unstash and commit
git switch develop
git stash pop
git status
git add develop.txt
git commit -m "Add develop.txt in develop branch"

# Task 7: Verify branches and commit history
git branch
git log --all --oneline --graph --decorate
```
